

## DIM L-70 / Al Si5<sup>©</sup>

**DIM L-70 Si5**  
3.2245 / AlSi5  
Standard alloy

### Characteristics

Very well circulating,  
Elongation 15%,  
Tensile strength Rm N/mm<sup>2</sup>: 160

### Fields of application

Al-Si-alloys  
Metal sheets  
different Al-alloys among themselves  
Alu-moulds  
Alu-prototype moulds  
Alu-castings
