

Material Safety Data Sheet

For welding consumables and related products
Conforms to Workplace Hazardous Materials Information
System (WHIMS) Rev. Nov. 1988
May be used to comply with Osha's Hazard Communication
Standard, 29 CFR 1910.1200. Standard must be consulted for
specific requirements.
Maybe used to comply with **Council Directive 2006/121/EC**
relating to the classification, packaging and labelling of
dangerous substances.
Blank spaces are not permitted. If any item is not applicable, or
no information is available, the space must be marked to
indicate that.

1. Product and Company Identification**1.1 Product information.****Product type:**

solid wire, high alloyed

Product name:**LAWI 24****1.2 Supplier:**LAWITEX GmbH
Hitdorfer Str. 10 c
40764 Langenfeld**2. Composition/Information on Ingredients**

Description:

This product contains

<5 Gew.-% Chrom

≤1 Gew.-% Nickel oder

≤1 Gew.-% Cobalt

Risky ingredients:

This product contains no risky

Ingredients

CAS-Nr.

not listed

Type of Ingredient:

not listed

Ingredient [Gew.-%]:

not listed

Danger icon

not listed

Risk category:

not listed

3. Hazards IdentificationDifferent kinds of fume and dust occur
during the welding and grinding
process. Nickel oxides might occur, which are
classified as carcinogenic. In addition irritant
substances such as fluorides and manganese
oxides as well as fine dusts (mostly iron
oxides) occur.**4. Emergency and first aid procedures**Remove from dust of fume exposure. If breathing has stopped perform artificial respiration. Summon
medical aid immediately.

Inhalation:

If breathing is difficult, provide fresh air and
call physician.

Skin contact:

For skin burns from arc radiation, see
physician. Affected skin has to be washed
carefully with soap.

Eye contact:

For radiation burns due to arc flash, see
physician. Under flowing water wash out the
wide opened eyelid

After swallow:

not listed

5. Fire fighting measures

possible fire extinguishing:

not usable, the product is neither
flammable nor explosive
not usable**6. Accidental release measures****Release**

not usable

7. Handling and Storage**7.1 Handling**

Advise of precaution measures:

UVV (VBG 15) has to be followed

7.2 Storage

Standards for stockrooms/container:

special standards for stockrooms/container
do not exist

8. Exposure Controls/Personal Protection**8.1 additional advises**

The measures under point

for technical machines

7.1 has to be taken into consideration

8.2 Components with working place related limit**Values which must be supervised****Identification of Substance****CAS-No.****limit value**

Chromium-VI-Verbindungen

13765-19-0

0,2 mg/m³ (TRK)

Mangan oxid (Mn304)

1317-35-7

1,0 mg/m³ (MAK)

Fluorides

-

6,0 mgm³ (MAK)

Ozone

10028-15-6

0,2 mg/m³ (MAK)**8.3 Personal safety equipment**

Respiratory, hand, eye,

Safety and hygienic protection

follow UVV (VBG 15) §27

in the workroom drinking or eating is not
allowed.**9. Physical and Chemical Properties**

manifestation:

solid wire, high alloyed

safety relevant data:

not applicable

10. Stability and Reactivity

avoid contact with acids and bases

Product is stable until 1200C.

11. Toxicological Information

follow point 3

12. Ecological Information:

Welding consumables and
 materials could degrade/weather into
 components originating from the consumables
 or from the materials used in the welding
 process. Avoid exposure to conditions that
 could lead to accumulation in soils or
 groundwater.

13. Disposal Considerations**Waste Disposal Method:**

Prevent waste from contaminating the
 surrounding environment. Discard any
 product, residue, disposable, container or
 liner in an environmentally acceptable
 manner, in full compliance with federal,
 state and local regulations.

14. Transport Information

No international regulations or restrictions
 are applicable

15. Regulatory Information**15.1 registration mark****not listed**

15.2 National regulations

Advice of working restrictions

not usable

Malfunction V:

not usable

classification about VbF:

not usable

technical instructions AIR:

5 mg/m³, bei einem
Massenstrom > 25 g/h

Danger grade of water:

not expected

Other regulations:

not announced
